

Otis Hellas stands next to its public and private partners that continue their daily operations. Hospitals, medical centers, pharmacies, super markets, grocery stores continue to serve citizens and equip them with all necessary goods during this adverse period. Otis actively supports all businesses and organizations proving its enhanced business continuity perspective. Uninterruptedly we continue to provide maintenance and repair services, that support our customers' smooth operation.

Following its Corporate and Social Responsibility, Otis launches its **new** innovative platform "**OTIS Smart Contracts**" which enables all our partners **simply & remotely** to:

- **Monitor** the work history of their elevators
- **Approve** online maintenance tasks and recorded checklist actions
- **Perform** electronic payments and transactions
- **Manage** their elevators' portfolio and contractual periods

Physical contact is minimized since all activities take place online, through PCs.

The platform is implemented in DLT - Distributed Ledger Technologies and especially the Blockchain infrastructure.

This platform is offered **free of charge** basis, for CEO Clubs Members, until the end of June 2020. If necessary, this period will be extended.

Our contact person will be:

Mrs. Kalliopi Mitrou

210 8200535
