

How clean  
is the air  
of your space?

## Free Inspection & Air Quality Assessment

Free of charge visits of specialized engineers for the control & evaluation of the air quality in the premises of the companies.

The purpose is to study the air quality in order to propose the best possible solutions, which mainly concern the upgrade of the air quality and its proper filtration.

The study will result in energy upgrade proposals & tips for the proper use of air conditioning systems in order to improve air quality.

Please contact Daikin Hellas at [info@daikin.gr](mailto:info@daikin.gr)  
& mention in your e-mail the code **CEO CLUB**

## Air Cleaner Offer

### Clean and healthy air

Daikin air cleaners eliminate **more than 99.9%** of respiratory viruses, according to **Institut Pasteur** de Lille.

### Control the humidity of your space

Daikin technology manages the humidity of your space keeping it at controlled levels (only for the MCK75J).
